Students of Andhra Loyola Institute of Engineering and Technology (ALIET) listened in rapt attention as Chicago-based writer and motivational speaker John Groleau spoke about the importance of self-transformation.

Addressing a workshop on ‘Transforming the World: Beginning with Transforming Ourselves

Using the Best Version of Ourselves to Transform the World’ at the college, Mr. Groleau borrowed lines from his own bestselling book ‘Navigating the Storm: A Personal Map to Thriving after a Heart Attack’ to prove his point that one might be a victim of serious illness, but he/she is not the helpless one. He explained how self-transformation could equip a person with the skills to deal with challenges.
