ormer Minister and Telugu Desam Party-Rajam in-charge Kondru Muralimohan on Friday alleged that Dalits were facing problems due to the policies of the YSR Congress Party government in the State. As many as 1,500 SCs organised a massive hunger strike in Rajam in support of former Chief Minister N. Chandrababu Naidu, who was remanded in judicial custody in connection with the skill development case.

Speaking on the occa-

sion, Mr. Muralimohan alleged that the Dalit families could not set up units with the stoppage of subsidy and financial assistance from the SC corporation which used to support economically backward SCs during the TDP regime.

"YSRCP government had completely ignored the implementation of SC sub-plan which was very important to take up developmental activities in SC colonies. The SCs would support the TDP in future as they had understood that injustice was meted out to them in the YSRCP rule," he said

MCT takes up widening of 2 roads in Tirupati

The Hindu Bureau TIRUPATI

Municipal Corporation of Tirupati (MCT) has taken up the widening of two prominent stretches, which are considered serious bottlenecks in old Tirupati.

This comes shortly after the expansion of several roads in the old town, which had awaited action for over three decades.

A vital link from Tilak Road to Thathayagunta area is being developed via Mallaiahgunta Katta and Jabbar Layout for a distance of 400 metres, which is expected to provide the much-needed relief for motorists.

The stretch is currently being developed as a 40foot-wide road abutting TTD's Sridevi Complex.

Mayor R. Sireesha and Commissioner D. Haritha

visited this stretch last month and concluded that its expansion was critical to ensure the movement of ambulances or fire tenders during emergencies.

Open drain

Similarly, the road abutting TTD's administrative building, from Bhavani Nagar Junction towards Railway Colony, is also being widened for a distance of 500 has remained an eyesore for decades. "We are now closing the drain with slabs and extending the road to ensure free flow of traffic," said Ms. Haritha.

WORLD HEART DAY - TAKE CONTROL OF YOUR HEART

On World Heart Day, it is important to increase sensitivity around India's growing challenges of cardiovascular diseases, fuelled by sedentary lifestyles, tobacco, changes in dietary patterns, and lack of timely diagnosis. As per a WHO report, India accounts for about one-fifth of the 17.9 million deaths caused by heart attacks globally. While there are many risk factors for heart disease, including age, gender, and genetics, people can also take many steps to reduce their risk, such as maintaining an active lifestyle, making mindful dietary choices, and turning to nutritional supplements. Commenting on the importance of nutritional supplements to support a healthy cardiovascular system, Dr. Kent Bradley, Chief Health and Nutrition Officer, Herbalife said, "A healthy diet is the foundation for overall vascular health, and nutritional supplements play a valuable role in bridging any nutritional gaps in the diet. Nutrients like omega-3 fatty acids, CoQ10, and magnesium support a well-functioning heart. Our highly acclaimed Herbalifeline capsules are rich in omega-3 fatty acids, including EPA and DHA, which help reduce the risk of heart diseases by maintaining cholesterol and trialvoeride levels," The age of onset for heart attacks is declining. According to the Indian Heart Health Association, 50% of all heart attacks in India occur in men under the age of 50, while 25% of heart attacks occur in men under the age of 40. Following a heart-healthy diet that includes plenty of vegetables, fruits, and whole grains, along with a variety of protein sources such as fish, seafood, legumes, nuts, and seeds, can lower the risk of heart diseases. While a well-balanced diet rich in vitamins and minerals is ideal, our busy lifestyles often make it difficult to meet all our nutritional needs. Individuals are often lacking the necessary amounts of fruits and vegetables. This is where supplements like fiber and select micronutrients can be helpful. Dietary supplements can help fill gaps in your diet and support cardiovascular health. Herbalife is a global health and wellness company and community on a mission to improve nutritional habits around the world with great-tasting, science-backed products - such as meal replacement shakes, protein powders, targeted supplements, energy boosters and avurvedic nutrition - that help people get the right balance of essential macro- and micro-nutrients such as protein, fats, vitamins, and minerals. These products can be customized to meet individual needs and tastes to help consumers achieve their unique health and wellness goals.
